

The colors of life appear brighter and more vivid when you live close to nature.

Fresh air, clear skies, and views of surrounding greenery await you at Green Meadows Residential Estates.

Located in the progressive city of Dasmariñas in Cavite, Green Meadows brings the best of nature as well as modern comforts within reach. As a first-class city, Dasmariñas is both a center for commerce and an industrial hub. Residents of Green Meadows can find all the essentials and conveniences of city living just a few minutes' drive from home. There are several malls – SM, Robinsons, Waltermart and the Dasmariñas Commercial Complex around the Central Business District in adjacent Barangay Sampaloc.

Dasmariñas is known as the University City of Cavite. Among the educational and health institutions found here are the De La Salle University Health Sciences Campus, the DLSU Medical Center (the first ISO-certified hospital in the country), Technological University of the Philippines and Philippine Christian University.

The Poblacion or city center is home to Cavite's old-time residents. Around the plaza are the newly renovated church of Our Lady of the Immaculate Conception, the Dasmariñas Library, the Dasmariñas Elementary School and the Immaculate Conception Academy-Science High School.

Governor's Drive, the main highway, connects the Dasmariñas Techno Park to the First Cavite Industrial Estate, which hosts 81 multinational and domestic corporations. The road also serves to connect the city with nearby towns and urban centers around Laguna de Bay and the resort city of Tagaytay and its famous Taal Lake.
